

CC-612 Case Cutter

Reduce cost while increasing productivity with United Silicone's CC-612 6M and 12M Case Cutters.

The CC-612 cuts both 6M and 12M cigarette cases simultaneously without the need for an operator or adjustments. Suction cups pull away corrugate from inner cartons while rotary blades cut cases minimizing damage significantly. The robust construction of the CC-612 is safe and easy for operators to use.

The CC-612 6M and 12M combo Case Cutter is ideal for locations that have increasing variety and 6M case inventory, high volume stamping operations, and those spending significant dollars on hand cutting cases.

Conveyor System Preparations

- Conveyor Height at 2'0" or 2'5"
Minimize back pressure at Case Cutter in-feed
- Consult your United Silicone Sales or Service Technician for assistance
- Your conveyor provider may offer other specifics

Options & Accessories

- Right or Left Egress Configuration
- Custom Conveyor Heights
- Machine Height Adjusters and Castors
- Compressed Air System
