

## VL-10 HP Tax Stamping Machine

High-speed, post-stamping tax machine, perfect for customers looking for the ultimate stamping technology.

The VL-10 HP Tax Stamping Machine is supercharged to 80+ cartons per minute. Perfect for both pre- and post-stamping operations, the VL-1 OHP needs no purging or head-height adjustments. Differing carton sizes are now supported by sturdier springs that maintain a longer life than the standard VL-1 O springs. An improved dual-head glue and closer system compensates for multiple carton feed directions. The VL-1 OHP's servo-driven carton indexing system speeds set-up time and drastically limits the need for adjustments. Post-stamping is now fast stamping.

### Machine Highlights

- Stamps Regulars, Kings, 100s, and 120s with no adjustment necessary
- Dual-Direction Flap-Feed; glues leading or trailing carton flaps
- Heavy Duty Support Springs; longer life than standard springs
- Dual-Head Glue System; precisely applies glue and firmly secures cartons
- Servo-Driven Indexing System; fast set-up and limited adjustments

### Options & Accessories

- Tandem and Triple Stamp Heads
- Remote Diagnostic Capabilities
- Universal Case Packer
- Lateral Packing Conveyor
- Flap Printer
- Packing Table
- Angled Drop Table
- Additional Stamp Cartridges
- Compressed Air System

### Specifications

Pre- and Post- Stamping: 80+ Cartons/Minute  
Clearance Length: 11'2"  
Width: 10'4"  
Maximum Height: 5'8"  
Weight: 1,700 lbs.  
Shipping Weight: 1,900 lbs.  
Electrical: 220-230 VAC, 30AMP Single Phase 60Hz  
Air: Clean, Dry Air Requirement - 7CFM @ 90PSI
